Savary Island – Helpful Information

Savary Island is located at the entrance to Desolation Sound and is accessible by boat, barge or water taxi from Lund. Be prepared: there are no public washrooms, garbage facilities, or electricity, so bring a flashlight and a garbage bag to take off the island when you leave. There is a natural spring mid-island, but otherwise no public drinking water, so bring bottled water as well. Recycle bins for refundable cans and bottles are located at the wharf, mid island, and Indian Point. Public telephones are available at the wharf, Savary Shores, and Indian Point.

One of the most beautiful islands in the Strait of Georgia, Savary is dear to those who live or holiday on the island. However, Savary is also one of the most fragile of B.C. islands and over the past number of years its limited and delicate resources have come under great pressure. To protect Savary Island and to have an enjoyable, safe time here, please consider the following:

Sunset at Desolation Sound, near Savary Island

- Fires are a real danger on Savary, and are usually banned during the summer months in accordance with the Savary Island Volunteer Fire Department.
- When travelling to Savary it is wise to bring a first aid kit. We have an efficient volunteer First Responder unit on island for emergencies – call 911.
- All roads are unpaved. Hikers, cyclists, animals, playing children and automobiles use Savary's roadways. Switchbacks and blind corners are numerous. Please drive slowly and cautiously at all times, especially in heavily populated areas. Helmets are mandatory for cyclists! Only property owners are allowed to barge vehicles onto the island.
- Day parking at the wharf is restricted to a 12-hour day time maximum (except emergency and handicapped). Ashworth Walk is restricted to 3-day maximum. No parking along Malaspina Promenade. Long-term parking is unavailable.
- The public wharf is for pick-up and drop-off use only. No moorage is available. Please do not ride bicycles on the wharf.
- Almost all property on Savary is privately owned. Out of consideration for residents, please stay on public roads, lanes, and trails when hiking on places other than the beach.
- Savary's sand cliffs are eroding at an alarming rate. It is extremely dangerous to climb or play near the cliffs. The island is very fragile. Motorized vehicles should be used only on roads. Pathways and trails are for foot traffic and bicycles only.
- Please control and clean up after your pets. There are many deer on the island which can be injured or killed if chased. Leashing your dog will help with wildlife and children at play.
- Gathering shellfish requires a valid B.C. Tidal Waters Sports Fishing License. Licenses are available at the gift shop on Savary. The Island's beaches are among the most valuable shellfish resources in the province – please be aware of legal limits. For further information, including restrictions and red tides, contact fisheries at 604-485-7963.
- Hunting is prohibited on Savary under the Wildlife Act.
