## Climate

The City of Powell River is located on the Sunshine Coast, and some of the most rich and fertile land in British Columbia. Located just over 130 km from Vancouver, BC, Powell River is surrounded by forest, mountains, and many freshwater bodies of water and is part of the coastal mountain range. With the Pacific Ocean to its west, the region enjoys a temperate climate.

The mild winters bring plenty of precipitation, but less than 32 cm of snow, on average, keeping the area green year round. Annual precipitation is almost 1,400 mm. The average winter temperature (Dec - March) is 5C, while the summer (June - September) averages a mild 17C. Fittingly for the Sunshine Coast, there is an average of 1900 hours of sunlight yearly.

Minimum	Average	Maximum	
2°C / 36°F	4°C / 39°F	6°C / 43°	January temperatures
13° / 55°F	18° / 64°F	22° / 72°	July temperatures
